

Geography Curriculum Intent

At Asmall, our geography curriculum aims to inspire pupils curiosity and facination about the world and its people that will remain with them for the rest of their lives. As pupils progress, their growing knowledge about the world will help them to deepen their understanding of the interaction between physical and human processes, and of the formation and use of landscapes and environments. All of our pupils benefit from teaching and learning that is based upon the programmes of study for geography which are set out in the National Curriculum. Within our geography curriculum, we focus on developing geographical skills through locational knowledge, place koweldge, map skills and fieldowork skills. We develop children's knowledge and geographical understanding by first immersing them in the areas where they live and then by gradually widening their horizons.
