

MFL Curriculum Intent

At Asmall, our MFL curriculum provides children with an opening to another culture and enables them to further develop their awareness, curiosity and understanding of the world that they live in. Our curriculum provides children with the appropriate balance of spoken and written language and lays the foundations they need to support them in their further study of languages in key stage 3. We aim to develop a sense of enjoyment and inquisitiveness within the subject of Spanish, providing our children with the opportunities to develop their confidence in the use of the language.
