

RE Curriculum Intent

At Asmall, we follow Lancashire Agreed Syllabus for Religious Education 'Searching for Meaning'. By learning about religion, we aim for children to become more open minded, respectful and achieve greater self-awareness. Children study major religions of the world in addition to Christianity. We also ensure that the religions represented by our children and families are part of our RE teaching. The skills and attitudes developed through our RE curriculum make a significant contribution to promoting British Values and developing greater community cohesion.

Our Curriculum Strands
