

History Curriculum Intent

At Asmall, our History curriculum aims to inspire our pupils, through experiences and opportunities, to understand more about the past and how this has influenced our lives today. By giving pupils a broad, balanced and diverse curriculum, we will ensure the progressive development of historical concepts, knowledge and skills. Children will be able to communicate their understanding, using language to enquire, explain and reason. History teaching at Asmall has a wide application to everyday life, teaching the children to enjoy learning about the past and to have a better understanding of the society in which they live.

Our Curriculum Strands
